NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS For the nine month period ended September 30, 2018 (Unaudited, Prepared by Management)

#### 1. NATURE AND CONTINUANCE OF OPERATIONS

Endurance Gold Corporation (the "Company") was incorporated under the *Canada Business Corporations Act* on December 16, 2003 and continued into British Columbia on August 16, 2004. The head office and principal address of the Company is at Suite 520, 800 West Pender Street, Vancouver, British Columbia, Canada V6C 2V6. The Company's registered address and records office is 2600 Oceanic Plaza, 1066 West Hastings Street, Vancouver, British Columbia, Canada, V6E 3X1.

The Company is engaged in the exploration and development of mineral properties in North America and has not yet determined whether its properties contain ore reserves that are economically recoverable. The Company has not generated any revenue from operations and will need to seek additional financing to meet its exploration and development objectives. These unaudited condensed consolidated interim financial statements ("Condensed Interim FS") do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

For the nine months ended September 30, 2018, the Company reported a net loss of \$3,981,413 and as of that date the Company's deficit was \$6,062,507. The Company's net working capital position at September 30, 2018 was \$3,963,378, inclusive of marketable securities with a fair value of \$3,582,413. If the Company does not or cannot sell a portion or all of the marketable securities at current market values, it may have to raise additional funds to continue operations and to complete its future exploration programs. While the Company has been successful in the past in raising capital, there is no assurance that such financing will be available on a timely basis and under terms acceptable to the Company.

# 2. BASIS OF PREPARATION

# a) Statement of Compliance

These unaudited Condensed Interim FS have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, including International Accounting Standard 34 ("IAS 34") *Interim Financial Reporting*. These unaudited Condensed Interim FS include the financial statements of the Company and its wholly-owned subsidiary.

These unaudited Condensed Interim FS were authorized for issue by the Audit Committee and Board of Directors on November 28, 2018 and should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2017.

The policies applied in these unaudited Condensed Interim FS are consistent with the policies disclosed in Notes 2 and 3 of the Company's audited consolidated financial statements for the year ended December 31, 2017, with the exception of the following new accounting standard which the Company adopted and is effective for the Company's interim and annual financial statements commencing January 1, 2018:

IFRS 9 Financial Instruments introduces new requirements for the classification and measurement of financial
assets and liabilities. The Company determined the adoption of IFRS 9 did not have an effect on its financial
statements.

#### 3. FUTURE ACCOUNTING POLICY CHANGES ISSUED BUT NOT YET IN EFFECT

The following new standard is not yet effective and has not been applied in preparing the unaudited Condensed Interim FS for the nine month period ended September 30, 2018. The Company is currently evaluating the potential impacts of this new standard.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS For the nine month period ended September 30, 2018 (Unaudited, Prepared by Management)

• IFRS 16, Leases, addresses accounting for leases and lease obligations and replaces the leasing guidance in IAS 17, Leases. The standard requires lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. The standard is effective for annual periods beginning on or after January 1, 2019 with early adoption permitted. The Company is currently evaluating the impact of the adoption of this amendments on its consolidated financial statements.

#### 4. MARKETABLE SECURITIES

Marketable securities consist of equity securities of an entity or entities over which the Company does not have control or significant influence.

	Sept	ember 30, 2018	D	ecember 31, 2017
Fair value, beginning	\$	7,907,569	\$	6,790,051

Unrealized gain (loss) on marketable securities		(3,977,247)		1,173,043
	\$	3,582,413	\$	7,907,569

With its main business focus being mineral exploration, the Company does not generally intend to hold its investments in marketable securities for long-term periods and accordingly these are classified as current assets. All of the Company's investments in marketable securities are also classified as fair value through profit and loss ("FVTPL").

# 9. FINANCIAL INSTRUMENTS AND RISK

#### Fair value

IFRS 7 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As at September 30, 2018, the Company's financial instruments are comprised of cash and cash equivalents, marketable securities, receivables excluding GST receivables, and accounts payable and accrued liabilities. The carrying value of receivables, and accounts payable and accrued liabilities approximate their fair values due to the relatively short periods to maturity of these financial instruments.

#### Risk Management

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

#### Credit risk

Credit risk is the risk of potential loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is limited to the carrying amount on the statement of financial position and arises from the Company's cash and cash equivalents, marketable securities and receivables.

The Company's cash and cash equivalents and marketable securities are held in accounts with a Canadian chartered bank and brokerage firms, which are high-credit quality financial institutions.

#### Liquidity risk

Liquidity risk is the risk that the Company will not meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at September 30, 2018, the Company had a cash and cash equivalents of \$444,563 to settle its current liabilities of \$77,816. All of the Company's financial liabilities have contractual maturities of 30 days or are due on demand and are subject to normal trade terms.

#### Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk may arise from changes in market factors such as interest rate, foreign exchange rate and price risks.

#### (a) Interest rate risk

The Company has cash balances and no interest-bearing debt. The Company's current policy is to invest excess cash in investment-grade short-term certificates of deposits issued by its banking institution. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its bank.

#### (b) Foreign currency rate risk

While the Company is domiciled in Canada and its capital is raised in Canadian dollars, a portion of its business is conducted in the United States of America. As such, it is subject to risk due to fluctuations in the exchange rate between the Canadian and US dollars. Management believes the foreign exchange risk derived from currency conversions is insignificant and therefore does not hedge its foreign exchange risk.

# (c) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate or foreign currency risks. At September 30, 2018, the Company had marketable securities with a fair value of \$3,582,413. A  $\pm 10\%$  change in the share prices would affect the Company's consolidated financial statements by approximately \$358,000.

The net realizable values of the Company's marketable securities are also subject to impairment resulting from insufficient market liquidity. The extent of such potential impairment is not readily determinable.

#### 10. CAPITAL MANAGEMENT

The Company manages its cash and cash equivalents, and common shares as capital. The Company manages its capital with the following objectives:

- to ensure sufficient financial flexibility to achieve the on-going business objectives including, but not limited
  to, pursuing the exploration of its exploration and evaluation assets, funding of future growth
  opportunities, and pursuit of new acquisitions; and
- to maximize shareholder return through enhancing the share value.

The Company monitors its capital structure and makes adjustments according to market conditions in an effort to meet its objectives given the current outlook of the business and industry in general. The Company manages its capital structure by issuing new shares, adjusting capital spending or disposing of assets. In addition, management of the Company's capital structure is facilitated through its financial and operational forecasting processes. The forecast of the Company's future cash flows is based on estimates of capital and operating expenditures, and other investing and financing activities. The forecast is regularly updated based on changes that the Company views as material to the accuracy of the forecast.

The Company's capital management objectives, policies and processes have not been changed over the period presented. The Company is not subject to any externally imposed capital requirements.
